Through The Eyes of a Child

We were so lucky to welcome Daisy, the 11-year-old leader of Premium Care Group's **Through the Eyes of a Child program!** She's been working with Flynn and Dylan to plan activities and set up a group of children to experience life in a care home from a child's perspective.

We're huge advocates of intergenerational relationships, and having this program in place brings so much joy, laughter, and connection to our residents. It was truly an inspiring and fun visit!

Viva Las Vegas at Shenfield

Las Vegas-style games provided residents with fun, nostalgic, and engaging activities. We enjoyed playing roulette and card games, and the themed decorations added to the excitement.

Please join us for Monday Art Club!

Our Monday Art Club has become incredibly popular, and we now have a special guest who joins us every week. Our group is full of talented artists who enjoy painting and exploring new creative projects each session.
